TRYST WITH THE WIND

AVANTURAA

CHOPPERS

India's first brand of Luxury Motorcycles

The newest entrant in the last 33 years

ARAI certified, street-legal motorcycles

One of 5 Indian motorcycle manufacturers in the market

The name originates from Sanskrit. Pronounced as Avun-too-raah!

Avanindra is "lord of the world".

Turaa signifies "strength, abundance, determination & power".

The logo is inspired from the Devnagri script with every alphabet conjoining to form the shield.

TRYST WITH THE WIND

Derived from the words 'Pravah' and 'Vega' in Sanskrit. Pravega is the power of speed, agility and grace. Uniqueness outside that demands a second look. Engineering inside that simply empowers. A rider's 'Tryst With The Wind'.

BUILT WITH

The best components globally, by the most trusted original equipment manufacturers.

TRYST WITH THE WIND

HIGHLIGHTS

2025.7cc V-Twin engine by S&S Cycle, USA

6 - piston forged front & rear brake callipers by Beringer, France

ARAI certified. Maharashtra TC registered

Designed by chief design engineer Kevin Alsop (Founder - Big Bear Choppers, USA)

DRL LED turn signals by Kellermann, Germany

Rear suspensions by Progressive, USA

Seats by Mustang, USA

Tyres by Avon, UK

ENGINE

Bore 4.125 in

Compression Ratio 8.9:1

Displacement 2025.7 CC / 124 CI

Engine Type S&S V124, 4 - Stroke, air-cooled

Exhaust 2-into-1 catalyst in muffler

Fuel Economy 17.5 kmpl city/highway combined mileage

Fuel Supply System Single bore electronic fuel injection

Stroke 4.625 in

DIMENSIONS

Fuel Capacity	21 ltrs
Ground Clearance	150 mm
Height	1155 mm
Length	2720 mm
Oil Capacity	3.5 ltrs with filter
Rake	34 degrees
Seat Height	600 mm unladen
Tire Size	Front - 120/70 R21 68V Rear - 250/40 R18 81V
Trail	4.5 in
Weight	347 kg in running order
Wheel Base	2000 mm
Width	835 mm

DRIVETRAIN

Clutch Type	Hydraulic actuated, wet multiplate
Final Drive	2 inch belt
Gear	6 speed

CHASSIS

Brakes	6 - piston fixed - Front & Rear
Frame Type	Steel double cradle
Front Suspension	Telescopic
Rear Suspension	Ride height adjustable spring preload
Wheel Type	Machined, forged aluminium billet: Front 21" Rear 18"

ELECTRIC

3.5" Dual speedometer - odometer (Analog & Digital)

Battery voltage indicator

Clock

Engine diagnostics

Hazard lights

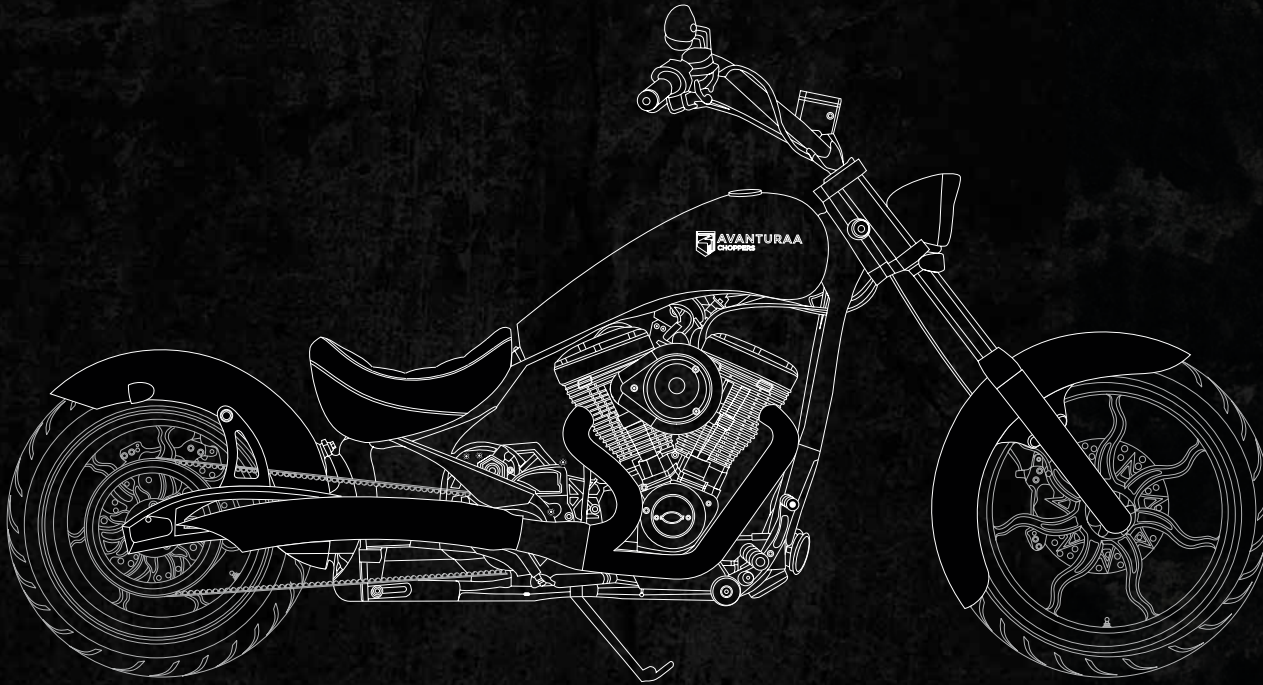

LED DRL indicators

LED head light & tail light

Motion sensor security alarm
